#### The Process of Making Tea

Tea is a type of hot drink which is famous all over the world. It is most widely consumed drink after water in the world. The process of making tea is very simple. For making a cup of tea first of all pour some water into a kettle and place it on the stove. Let the water in the kettle boil for some time. Then put one spoonful of tea leaves powder for a cup of tea and two spoonful of sugar into the boiling water. Let it boil again for a few minutes. Then add some milk to it and let it boil again for a few seconds. Now the tea is ready to serve. You can filter it in a cup to serve.

Communication is the process of sending information from one person to other person. It is useful for sending and receiving messages. It is a two way means of exchanging information in the form of opinion, views and ideas between two or more than two persons. The cycle of communication works with the help of sender, message, coding, channel, decoding, receiver and feedback. In general, the communication is completed through spoken and written forms. Sometimes, there is the use of graphical representation in the process of communication.

In the cycle of communication, at first, the sender starts conversation. Further, the sender encodes messages and uses proper channel to send the

message. Here, the sender selects an appropriate channel like letter or email for sending messages. The selected medium for sending message is important in the communication. Further, the recipient receives the message and decodes it. After proper decoding and interpreting the message, the receiver sends feedback to the sender. When the sender receives the feedback, the cycle of communication is successfully completed.

The dew shall weep thy fall to-night,  
For thou must die.

Sweet rose, whose hue angry and brave  
Bids the rash gazer wipe his eye;  
Thy root is ever in its grave,  
And thou must die.

Sweet spring, full of sweet days and roses,  
A box where sweets compacted lie;  
My music shows ye have your closes,
